

The screenshot displays the Zirkonzahn Download-Center application. On the left, a sidebar lists various implant systems for download, including categories like 'Implant Company', 'Artificial', 'Bridges', 'BICO Implant Systems', 'ITI Biotechnology Institute', 'Nobel Biocare', 'Sirona & Martin', 'Alpha Bio TCC', 'Anthogyr', 'AZ Implants', 'BrainBase Corporation', 'Bio Horizons', 'Bredent Dental', 'Bredent 3D', 'Carrig', 'Connet', 'Connect', 'Cuscenter', 'Crownhead', 'Custom Dental', 'Dentium', 'DYNAB', and 'Frudent'. The main area shows a list of available libraries, with 'Zirkonzahn' selected. A 'Download files...' dialog box is open, showing a tree view of the file structure. The 'implant' folder is selected, and its contents are listed below. The dialog box has 'OK' and 'Cancel' buttons at the bottom.

Sélectionner le dossier "C:\DentalCADApp\bibliothèque\implant\implant\..." comme endroit de stockage des fichiers.
