## *Where heroes are made*

Zirkonzahn is based on the fundamental values of **discipline, innovation, trust** and **responsibility**. Our target is to create Zirconia heroes. This is what we keep working on every day with all our forces. We produce everything on our own, acquire raw materials only from selected partners and with our work we guarantee a continually high quality of all our homemade South Tyrolean specialities. In our head office, located in Gais/South Tyrol, we develop new technologies and visions for the dental technology as a researching family-company.

Since we love what we do, we would also like to transmit it. We serve our customers through Zirkonzahn partners, located in over 50 countries, in Education Centers, spread all over the world, and on-site at the customer's own laboratories. Our Training Centers were founded and built to make our system users the best ones.

*“We assume a 100% responsibility for everything!”*

*Wolfgang Steyer*
